I was involved in the internal team restructure last year.

Now I'm involved in procedures to do with staff management and development to ensure they become stars of the future!

Best bits about working at BKL:

Making a difference to clients, the time that is invested in our team – especially during the training contract stage – and the opportunities to progress.

About you:

I enjoy travelling, especially to Italy where my partner is from. I love trying out new restaurants and following sport, particularly rugby and football (I used to play myself but prefer to watch Saracens and Tottenham Hotspur from the sidelines these days!)

“The partner group here at BKL have always been a real inspiration to me. It’s exciting to think that I will continue to benefit from their experience but from a position where I can add my own thoughts to how the practice is run.”
